Notes to the unaudited condensed consolidated interim financial statements at June 30, 2018 and for the three and six-month periods ended June 30, 2018 (All amounts in thousands of reais unless otherwise stated)

1.3 Long-Term Incentive Plan (“LTIP”)

Members of management participate in a Long-Term Incentive Plan, or LTIP, which was established by UOL for its group companies on July 29, 2015 and has been adopted by PagSeguro Digital. Beneficiaries under the LTIP are selected by UOL’s LTIP Committee, which consists of the Chairman and two officers of UOL, and are submitted to our Board of Directors for adoption.

The policy for recognizing and measuring share-based payments in the interim period is described in Note 17.

2. Presentation and preparation of the unaudited condensed consolidated interim financial statements and significant accounting policies

These consolidated interim financial statements, which are unaudited, do not include all of the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”). However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company’s financial position and performance since the last annual financial statements.

These unaudited consolidated financial statements for the six-month period ended June 30, 2018 were authorized for issuance by the PagSeguro Group’s Board of Directors on August 09, 2018.

2.1 Basis of preparation of consolidated interim financial information

This unaudited consolidated interim financial report for the six-month period ended June 30, 2018 has been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting” as issued by the International Accounting Standard Board.

This unaudited condensed consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2017 (the “Annual Financial Statements”).

The accounting policies and critical accounting estimates and judgments adopted are consistent with those of the previous financial year and corresponding interim reporting period.

2.2 New accounting pronouncements

Effective for periods beginning on or after January 1, 2018

The following new standards have been issued by IASB and are effective for the six-month ended June 30, 2018:

IFRS 9—“Financial Instruments”: addresses the classification, measurement and recognition of financial assets and liabilities. The complete version of IFRS 9 was issued in July 2014 and is effective as from January 1, 2018. It replaces the guidance included in IAS 39 related to the classification and measurement of financial instruments. The main amendments brought by IFRS 9 are: (i) new criteria for the classification of financial assets; (ii) new impairment model for financial assets, which is based on expected losses, replacing the current model of incurred losses; and (iii) relaxation of the requirements for the adoption of hedge accounting. Management evaluated the new guidelines introduced by IFRS 9 and did not identify any material impact for the PagSeguro Group.

IFRS 15—“Revenue from Contracts with Customers”: this new standard introduces the principles to be applied by an entity to determine the measurement and recognition of revenue. This standard is based on the principle that revenue is recognized when control of a good or service is transferred to a customer, and, therefore, the principle of control replace the principle of risks and benefits. This standard replace IAS 11—“Construction Contracts”, IAS 18—“Revenues” and related interpretations, and becomes effective on January 1, 2018. Management evaluated the new guidelines introduced by IFRS 15 and did not identify any material impact for the PagSeguro Group.

Therefore, changes to standards or new pronouncements applicable to the years presented in the consolidated financial statements were not relevant to PagSeguro Group, for retrospective disclosure and disclosure of amounts.

Effective for periods beginning on or after January 1, 2019

IFRS 16—“Leases”—this new standard requires lessees to recognize the liability of the future payments and the right of use of the leased asset for virtually all lease contracts, including operating leases. Certain short-term and low-value contracts may be out of the scope of this new standard. The criteria for recognition and measurement of leases in the financial statements of the lessors are substantially maintained. IFRS 16 is effective for years beginning on or after January 1, 2019 and replaces IAS 17—“Leases” and related interpretations. Management has performed a preliminary assessment and did not identify any material impacts to date.

There are no other IFRS or IFRIC interpretations not yet effective that could have a material impact on PagSeguro Group financial statements.

The operational context of the subsidiaries is to be read in conjunction with the annual financial statements for the year ended December 31, 2017.

BIVA:

On January 15, March 12 and April 27, 2018, PagSeguro Brazil acquired an additional interest of BIVA (15.12%, 0.50% and 2.42%, respectively), bringing total interest to 77.35% of BIVA's total share capital (59.31% as of December 31, 2017). The total amount paid for this acquisition was R\$5,389. For more details see note 9.

FIDC:

On March 29, 2018, two investors contributed capital in the amount of R\$ 20 million in the subsidiary, acquiring only senior and mezzanine quotes. On June 30, 2018 the share capital of the FIDIC is composed of subordinated quotes, senior quotes and mezzanine quotes. PagSeguro Brasil owns 100% of the subordinated quotes. The senior and mezzanine quotes pay 107% of the Interbank Deposit Certificate (CDI) with annual amortization of interest.

4. Segment reporting

Operating segments are reported consistently with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, responsible for allocating resources and assessing the performance of the operating segments, is the Board of Directors, which is also responsible for making the PagSeguro Group strategic decisions.

Considering that all decisions are based on consolidated reports, and that all decisions related to strategic and financial planning, purchases, investments and the allocation of funds are made on a consolidated basis, the PagSeguro Group and its subsidiaries operate in a single segment, as payment arrangement agents.

The PagSeguro Group is domiciled in Brazil and has revenue arising from local customers and customers located abroad. The mainly revenue is related sales from domestic market. Net revenues from the international market represents 1.5% and 3.0% for the six-month periods ended June 30, 2018 and 2017, respectively.

At June 30, 2018, the short and long term compensation related to the executive officers for the six-month period ended June 30, 2018 amounted to R\$ 39,047 (June 30, 2017—R\$ 2,124 includes only short-term).

9. Business combinations

The acquisitions described below are in accordance with PagSeguro's Digital business strategies, as well as the products offered by them and their client portfolio.

a) BCPS

On January 1, 2017, PagSeguro Brazil acquired 99.5% of the share capital and obtained the control of BCPS.

The amount paid in the acquisition was R\$406, which was settled in cash on that date. The fair value of the acquired assets, amounting R\$568, and the assumed liabilities amounting of R\$75 at the acquisition date are substantially similar to their book value. A bargain purchase gain of R\$87 arose from the acquisition of BCPS. The impacts of the acquisition were not considered material to PagSeguro Brazil.

b) R2TECH

On May 2, 2017, PagSeguro Brazil acquired 51% of the share capital and obtained control of R2TECH. The consideration for the purchase was R\$9,200, of which R\$2,940 was settled in cash on the acquisition date, R\$460 was paid on August 14, 2017 and R\$2,300 was paid on April 23, 2018. R\$3,500 is variable installment, subject to the attainment of some specific targets for the year of 2018, established in the acquisition agreement, with payment deadline up to 10 business days after the conclusion of the Company's audited financial statements. Based on current management expectations, this performance goal will be achieved.

c) BIVA

In October, 2017, PagSeguro Brazil acquired control with the acquisition of a 51.41% interest in Bivaco Holding SA.

The total consideration paid for the purchases was R\$18,470, which was settled in cash on the acquisition date. The fair value of the assets acquired, in the amount of R\$2,350 and the liabilities assumed, in the amount of R\$997 on the acquisition date, are substantially similar to their book value.

The goodwill of R\$17,117 arising from the acquisition is attributable to the future profitability of the business in synergy with the products offered by PagSeguro Group. The purchase price allocation may be subject to changes in the measurement period as defined in IFRS.

15. Provision for contingencies

Some companies of PagSeguro Group are party to labor and civil litigation in progress and are discussing such matters at the administrative and judicial levels, which, when applicable, are supported by judicial deposits. The provisions for probable losses arising from these matters are estimated and periodically adjusted by management, supported by the opinion of its external legal advisors.

c) Share based long term incentive plan (LTIP)

Members of management participate in the LTIP, which was established by UOL for its group companies on July 29, 2015 and has been adopted by PagSeguro Digital. Beneficiaries under the LTIP are selected by UOL's LTIP Committee, which consists of the Chairman and two officers of UOL, and are submitted to our Board of Directors for adoption.

PagSeguro Digital Ltd.

Notes to the unaudited condensed consolidated interim financial statements at June 30, 2018 and for the three and six-month periods ended June 30, 2018 (All amounts in thousands of reais unless otherwise stated)

On January 26, 2018, beneficiaries under the LTIP were granted rights in the form of notional cash amounts without cash consideration. These rights vest in five equal annual installments starting on July 29, 2015, or the date of employment, the earliest of both dates. Under the terms of the LTIP, upon completion of the IPO, the vested portion of each beneficiary's LTIP rights was converted into Class A common shares of PagSeguro Digital at the IPO price (US\$ 21.50) which is the assessed fair value at the grant date. As a result, the beneficiaries of the the LTIP exercised a total of 1,823,727 new Class A common shares upon completion of the IPO.

The unvested portions of each beneficiary's LTIP rights will be settled on each future annual vesting date in shares.

The shares granted under the LTIP are subject to a one-year lock-up period. Any shares that are issued on a subsequent vesting date during the first year after the IPO will be subject to the remainder of that same lock-up period, expiring one year after the IPO. After the close of that one-year period, shares to be granted under the LTIP will no longer be subject to a lock-up.

This arrangement is classified as equity-settled. For the six-month period ended June 30, 2018, the Company recognized compensation expenses related to the LTIP in the total amount of R\$ 184,687.

The maximum number of common shares that can be delivered to beneficiaries under the LTIP may not exceed 3% of our issued share capital at any time. The total shares granted were 5,764,401, so the outstanding shares as of June 30, 2018 were 1,920,169. There was no forfeitures or expirations in the six-month period ended June 30, 2018.

During the quarter ended June 30, 2018, 96,442 additional shares were granted in April, 2018 at an exercise average price of US\$ 38.11 . On this way, the outstanding shares as of June 30, 2018 are 326,684,418. There was no forfeitures or expirations in the six-month period ended June 30, 2018.

d) Dividends

At the Extraordinary General Shareholders Meeting held on September 29, 2017, PagSeguro Brazil's shareholders approved the distribution of (i) R\$142,795 of dividends related to the six-month period ended June 30, 2017 and (ii) R\$96,008 in additional dividends related to the year ended December 31, 2016. The total dividends distributed amounted to R\$238,803, of which R\$184,530 was offset against receivables under the centralized cash management with UOL and the balance of R\$54,272 was paid in cash by PagSeguro Brazil to UOL.

e) Equity valuation adjustments

The Company recognizes in this account the accumulated effect of the foreign exchange variation resulting from the conversion of the financial statements of the foreign subsidiary BCPS, represented by the accumulated amount of R\$ 411 as of June 30, 2018 (R\$ 55 as of December 31, 2017). This accumulated effect will be reverted to the result of the year as gain or loss only in case of disposal or write-off of the investment.

The Company also recognized in this account the difference between the book value and the amounts paid in the acquisitions of additional interests of the non-controlling shareholders of the subsidiary BIVA, in the amount of R\$ 7,588.

21. Financial instruments by category

PagSeguro Group estimates the fair value of its financial instruments using available market information and appropriate valuation methodologies for each situation.

The interpretation of market data, as regards the choice of methodologies, requires considerable judgment and the establishment of estimates to reach an amount considered appropriate to each situation. Therefore, the estimates presented may not necessarily indicate the amounts that could be obtained in the current market. The use of different hypotheses to calculate market value or fair value may have a material impact on the amounts obtained. The assets and liabilities presented in this note were selected based on their relevance.

PagSeguro Group believes that the financial instruments recognized in these consolidated interim financial statements at their carrying amount are substantially similar to their fair value. However, since they do not have an active market, variations could occur in the event the PagSeguro Group were to decide to settle or realize them in advance.

PagSeguro Group classifies its financial instruments into the following categories:

22. Financial risk management

PagSeguro Group activities expose it to a variety of financial risks: market risk (including currency risk and cash flow or fair value interest rate risk), fraud risk (chargebacks), credit risk and liquidity risk. The PagSeguro Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the PagSeguro Group's financial performance. PagSeguro Group uses derivative financial instruments to hedge certain risk exposures, when applicable.

Among the main market risk factors that may affect the PagSeguro Group's business are the following ones:

(i) Foreign exchange risk

Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency. As of June 30, 2018 and December 31, 2017, the PagSeguro Group is not materially exposed to this foreign exchange risk.

(ii) Fraud Risk (chargeback)

The PagSeguro Group's sales transactions are susceptible to potentially fraudulent or improper sales and it uses two processes to control the fraud risk as such:

The first one consists of monitoring, on a real time basis, the transactions carried out with credit and debit cards and payment slips, through an anti-fraud system. This process approves or rejects suspicious transactions at the time of the authorization, based on statistical models that are revised on a periodic basis.

The second process detects chargebacks and disputes not identified by the first process. This is a complementary process and increases the PagSeguro Group's ability to avoid new frauds.

(iii) Credit risk

Credit risk is managed on a group basis and are limited to the possibility of default by: (a) the card issuers, which have the obligation of transferring to the credit and debit card labels the fees charged for the transactions carried out by their card holders, and/or (b) the acquirers, which are used by PagSeguro Group to approve transactions with the issuers.

In order to mitigate this risk, the PagSeguro Group has established a Credit and Liquidity Risk Committee, whose responsibility is to assess the level of risk of each of the card issuers served by the PagSeguro Group, classifying them into three groups:

- (i) card issuers with a low level of risk, with credit ratings assigned by FITCH, S&P and Moody's, which do not require additional monitoring;
- (ii) card issuers with a medium level of risk, which are also monitored in accordance with the Basel and property, plant and equipment ratios; and
- (iii) card issuers with a high level of risk, which are assessed by the Committee at monthly meetings.

No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by these counterparties in addition to the amounts already recognized as chargebacks, presented under fraud risk.

(iv) Liquidity risk

PagSeguro Group manages liquidity risk by maintaining reserves, bank and credit lines for the obtaining borrowings, when deemed appropriate. PagSeguro Group continuously monitors actual and projected cash flows, and matches the maturity profile of its financial assets and liabilities in order to ensure the PagSeguro Group has sufficient funds to honor its obligations to third parties and meet its operational needs.

PagSeguro Group invests cash surplus in interest bearings financial investments, choosing instruments with appropriate maturity or sufficient liquidity to provide adequate margin as determined by the forecasts.

At June 30, 2018, the PagSeguro Group held cash and cash equivalents of R\$ 2,913,482 (R\$ 66,767 at December 31, 2017).

The table below shows the PagSeguro Group's non-derivative financial liabilities divided into the relevant maturity group based on the remaining period from the balance sheet date and the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

23. Capital management

PagSeguro Group monitors capital on the basis of the gearing ratio which corresponds to net debt divided by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) less cash and banks. Total capital is calculated as equity as shown in the consolidated balance sheet plus net debt.

During the six-month period ended June 30, 2018, the PagSeguro Group's strategy was to maintain a gearing ratio of up to 20%. PagSeguro Group had no loans at June 30, 2018, and December 31, 2017 therefore no gearing ratio is presented.

24. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. A three-level hierarchy is used to measure fair value, as shown below:

- Level 1—Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2—Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3—Inputs for the assets and liabilities that are not based on observable market data (that is, unobservable inputs).

The financial investments whose fair value adjustments is classified as Level 1.

There were no transfers between Levels 1, 2 and 3 during the six-month period ended June 30, 2018.
