**Financial Discussion:**

## **I—Statement of Income**

**Non-GAAP disclosure**

This press release includes certain non-GAAP measures. We present non-GAAP measures when we believe that the additional information is useful and meaningful to investors. These non-GAAP measures are provided to enhance investors' overall understanding of our current financial performance and its prospects for the future. Specifically, we believe the non-GAAP measures provide useful information to both management and investors by excluding certain expenses, gains and losses, as the case may be, that may not be indicative of our core operating results and business outlook.

These measures may be different from non-GAAP financial measures used by other companies. The presentation of this non-GAAP financial information, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered separately from, or as a substitute for, our financial information prepared and presented in accordance with IFRS as issued by the IASB. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with IFRS. These measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures.

Our non-GAAP results consist of our GAAP results as adjusted to exclude the following items:

**Stock-based compensation expenses and related employer payroll taxes:** This consists of expenses for equity awards under our long-term incentive plan (LTIP). We exclude stock-based compensation expenses from our non-GAAP measures primarily because they are non-cash expenses and they depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the vesting of the equity awards. The related employer payroll taxes depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the exercises and the vesting date of the equity awards, over which management has limited to no control, and as such management does not believe these expenses correlate to the operation of our business.

**Foreign exchange gain on follow-on proceeds:** This consists of financial income related to the impact of exchange rate variation on the conversion from U.S. dollars into Brazilian *reais* of the proceeds from our sale of new shares in our June 2018 follow-on offering. We exclude this foreign exchange variation from our non-GAAP measures primarily because it is an unusual gain.

**Tax related to remittance of follow-on proceeds (IOF tax):** This relates to the impact of Brazilian IOF tax (currency remittance tax) payable when we remitted the proceeds from our sale of new shares in our June 2018 follow-on offering from the Cayman Islands to Brazil. We exclude this IOF tax on the remittance of follow-on share proceeds from our non-GAAP measures primarily because it is an unusual expense.

**Income tax and social contribution on non-GAAP adjustments:** This represents the income tax effect related to the non-GAAP adjustments mentioned above, except the Foreign exchange gain on follow-on proceeds.

For a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures, see “Reconciliation of Revenue and Income to Non-GAAP Revenue and Income,” “Reconciliation of Expenses to Non-GAAP Expenses,” “Reconciliation of Income Tax and Social Contribution to Non-GAAP Income Tax and Social Contribution,” “Reconciliation of Net Income to Non-GAAP Net Income,” “Reconciliation of Basic and diluted EPS to Non-GAAP Basic and diluted EPS,” and “Reconciliation of GAAP Measures to Non-GAAP Measures.”

### Total revenue and income

Our Total revenue and income amounted to R\$1,389.7 million in the three months ended June 30, 2019, an increase of 38.7% from R\$1,001.8 million in the three months ended June 30, 2018, or an increase of 42.6% after non-GAAP adjustments in the three months ended June 30, 2018.

Reconciliation of Total Revenue and Income to non-GAAP Total Revenue and Income (R\$ millions):	At and for the three months ended June 30, 2019	At and for the three months ended June 30, 2018	Var. %
<b>Total Revenue and Income</b>	<b><u>1,389.7</u></b>	<b><u>1,001.8</u></b>	<b><u>38.7%</u></b>

<b>Non-GAAP Total Revenue and Income</b>	<b><u>1,389.7</u></b>	<b><u>974.5</u></b>	<b><u>42.6%</u></b>

[1] *Foreign exchange gain on follow-on proceeds:* financial income of R\$27.3 million related to the impact of exchange rate variation on the conversion from U.S. dollars into Brazilian reais of the proceeds from our sale of new shares in our June 2018 follow-on offering. We exclude this foreign exchange variation from our non-GAAP measures primarily because it is an unusual income.

### Net revenue from transaction activities and other services

Our Gross revenue from transaction activities and other services in the three months ended June 30, 2019 amounted to R\$914.1 million, an increase of R\$314.2 million, or 52.4%, from R\$599.9 million in the three months ended June 30, 2018. This increase was principally due to a continued increase in our active merchant base, average spending per merchant and TPV.

Our Gross revenue from transaction activities and other services during the three months ended June 30, 2019 increased by a lesser percentage than our TPV, which increased to R\$26.8 billion from R\$16.9 billion in the three months ended June 30, 2018. This difference in the growth rate was driven by the mix of debit and credit card payments processed containing a higher percentage of debit card payments and within the credit card payments processed, a lower percentage of credit card transactions made in installments in the three months ended June 30, 2019 compared to the three months ended June 30, 2018.

Our Deductions from gross revenue from transaction activities and other services, which consist principally of taxes, amounted to R\$115.2 million in the three months ended June 30, 2019, or 12.6% of our Gross revenue from transaction activities and other services for the quarter. In the three months ended June 30, 2018, Deductions from gross revenue from transaction activities and other services totaled R\$84.7 million, or 14.1% of our Gross revenue from transaction activities and other services for the quarter. The R\$30.5 million, or 36.0%, increase in these Deductions is directly related to the increase in the gross revenue.

As a result, our Net revenue from transaction activities and other services in the three months ended June 30, 2019 amounted to R\$798.9 million, an increase of R\$283.7 million, or 55.1%, from R\$515.2 million in the three months ended June 30, 2018.

### Net revenue from sales

Our Gross revenue from sales in the three months ended June 30, 2019 amounted to R\$92.1 million, a decrease of R\$36.0 million, or 28.1%, from R\$128.1 million in the three months ended June 30, 2018. This decrease was principally due to a different POS devices sales mix and hardware price reductions in the three months ended June 30, 2019 when compared to the three months ended June 30, 2018.

Our Deductions from gross revenue from sales in the three months ended June 30, 2019 amounted to R\$**28.7** million, or **31.1%** of our Gross revenues from sales for the period. In the three months ended June 30, 2018, these Deductions totaled R\$**38.7** million, or **30.2%** of Gross revenues from sales for the period. The small increase in these Deductions as a percentage of our Gross revenues from sales is due to a change in the mix of Brazilian states in which we sold POS devices since ICMS is levied by each state at a different rate.

As a result, our Net revenue from sales in the three months ended June 30, 2019 amounted to R\$**63.4** million, a decrease of R\$**25.9** million, or **29.0%**, from R\$**89.4** million in the three months ended June 30, 2018.

#### *Financial income*

Our Financial income, which represents the discount fees we withhold from credit card transactions in installments for the early payment of accounts receivable, amounted to R\$**497.2** million in the three months ended June 30, 2019, an increase of R\$**164.6** million, or **49.5%** from R\$**332.6** million in the three months ended June 30, 2018. The growth in this activity compared to the three months ended June 30, 2018 was driven by growth in our TPV for credit card transactions in installments.

#### *Other financial income*

Our Other financial income amounted to R\$**30.2** million in the three months ended June 30, 2019, a decrease of R\$**34.3** million from R\$**64.5** million in the three months ended June 30, 2018. This decrease was due to the unusual impact of exchange rates in the conversion from U.S. dollars into Brazilian *reais* of the proceeds from our sale of new shares in our June 2018 follow-on offering, which impact amounted to R\$**27.3** million in the three months ended June 30, 2018.

#### *Expenses*

Our total expenses amounted to R\$**928.6** million in the three months ended June 30, 2019, an increase of R\$**239.5** million, or **34.8%**, from R\$**689.1** million in the three months ended June 30, 2018.

As a percentage of our Total revenue and income, our total expenses in the three months ended June 30, 2019 decreased by **2.0** percentage points, to **66.8%** in the three months ended June 30, 2019 from **68.8%** in the three months ended June 30, 2018.

Our non-GAAP total expenses amounted to R\$**898.2** million in the three months ended June 30, 2019, an increase of R\$**272.1** million, or **43.5%**, from R\$**626.1** million in the three months ended June 30, 2018.

This consists of expenses for equity awards under our long-term incentive plan (LTIP). We exclude stock-based compensation expenses from our non-GAAP measures primarily because they are non-cash expenses and they depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the vesting of the equity awards. The related employer payroll taxes depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the exercises and the vesting date of the equity awards, over which management has limited to no control, and as such management does not believe these expenses correlate to the operation of our business. In the three months ended June 30, 2019, the amount of R\$30.4 million is mainly composed of the recurrent quarterly provision. In the three months ended June 30, 2018 the amount of R\$30.7 million is mainly related to new shares issued to preexisting LTIP beneficiaries and to new employees participating in our LTIP. The amount of R\$31.6 million is related to the recurrent quarterly provision.
- [2] **Tax related to remittance of follow-on proceeds (IOF tax):** R\$0.7 million related to the impact of Brazilian IOF tax (currency remittance tax) payable when we remitted the proceeds from our sale of new shares in our June 2018 follow-on offering from the Cayman Islands to Brazil. We exclude this IOF tax on the remittance of follow-on proceeds from our non-GAAP measures primarily because it is an unusual expense.

### *Cost of sales and services*

Our Cost of sales, expressed as a percentage of our Net revenue from sales, increased to 364.1% in the three months ended June 30, 2019 from 160.3% in the three months ended June 30, 2018 due to hardware price reductions.

In the three months ended June 30, 2019, our non-GAAP Cost of sales and services amounted to R\$682.0 million (reflecting the exclusion of the LTIP adjustment of R\$2.4 million in the three months ended June 30, 2019), an increase of R\$210.5 million, or 44.7%, from R\$471.5 million in the three months ended June 30, 2018 (reflecting the exclusion of the LTIP adjustment of R\$11.3 million in the three months ended June 30, 2018). Our non-GAAP Administrative expenses represented 5.9% of the total of our non-GAAP Net revenue and income in both the three months ended June 30, 2019 and the three months ended June 30, 2018. Expressed as a percentage of our Financial income, our Financial expenses represented 0.4% in the three months ended June 30, 2019 and 0.8% in the three months ended June 30, 2018. - [3] **Tax related to remittance of follow-on proceeds (IOF tax):** R\$0.7 million related to the impact of Brazilian IOF tax (currency remittance tax) payable when we remitted the proceeds from our sale of new shares in our June 2018 follow-on offering from the Cayman Islands to Brazil. We exclude this IOF tax on the remittance of follow-on proceeds from our non-GAAP measures primarily because it is an unusual expense.
- [4] **Income tax and social contribution on Non-GAAP adjustments:** the amount of R\$10.3 million consists of income tax at the rate of 34% calculated on the non-GAAP adjustments. The amount of R\$21.2 million consists of income tax at the rate of 34% calculated on the non-GAAP adjustments, other than the foreign exchange gain on follow-on proceeds of R\$27.3 million, which is not taxable, and the tax benefits related to other non-GAAP adjustments.

## II—Cash Flow

Our cash and cash equivalents at the beginning of the six months ended June 30, 2019 amounted to R\$2,763.0 million.

Our Profit before income taxes in the six months ended June 30, 2019 was R\$910.5 million.

The adjustments for revenue, income and expenses recorded in our statement of income in the six months ended June 30, 2019 but which did not affect our cash flows totaled the positive amount of R\$188.9 million, mainly due to R\$27.8 million of Share-based long-term incentive plan (LTIP) expenses, R\$74.5 million in Chargebacks, R\$48.1 million of Depreciation and amortization recorded in our statement of income and R\$30.8 million of other financial cost (net), mainly due to R\$28.3 million related to interest income received from financial investments. LTIP expenses relate to equity awards under our LTIP. Chargebacks relate to amounts that we initially recorded as revenues but for which we did not receive the related cash payment due primarily to fraud.

The adjustments for changes in our operating assets and liabilities in the six months ended June 30, 2019 amounted to a negative cash flow of **R\$1,633.8 million**:

- Our Accounts receivable item, which is presented net of transaction costs and financial expenses we incur when we elect to receive early payment of the accounts receivable owed to us by card issuers, consists of the difference between the opening and closing balances of the Accounts receivable item of Current Assets and Non-current assets on our balance sheet (**R\$9,871.5 million** at June 30, 2019 compared to **R\$8,104.7 million** at year-end 2018) excluding interest income received in cash and chargebacks, which are presented separately in the statement of cash flows. Accounts receivable represented a negative cash flow of **R\$1,979.9 million** in the six months ended June 30, 2019.
- Our Payables to third parties item, which is presented net of revenue from transaction activities and financial income we receive when merchants elect to receive early payments, consists of the difference between the opening and closing balances of the Payables to third parties item of Current Liabilities on our balance sheet (**R\$4,581.5 million** at June 30, 2019 compared to **R\$4,324.2 million** at year-end 2018). Payables to third parties represented positive cash flow of **R\$257.3 million** in the six months ended June 30, 2019.
- Our Receivables from (payables to) related parties item consists of the difference between the opening and closing balances of the Payables to related parties item (i.e., UOL) of Current Liabilities on our balance sheet (**R\$34.9 million** at June 30, 2019 compared to **R\$30.8 million** at year-end 2018). Receivables from (payables to) related parties represented positive cash flow of **R\$4.1 million** in the six months ended June 30, 2019.
- Our Inventories item represents changes in the carrying value of the Inventories item of Current Assets on our balance sheet. This item represented positive cash flow of **R\$3.1 million** in the six months ended June 30, 2019.
- Our Salaries and social charges item represent amounts that were recorded on our statement of income, but which remained unpaid at the end of the period, principally because they related to the final month of the period. This item represented positive cash flow of **R\$35.0 million** in the six months ended June 30, 2019.
- Our Trade payables item consists of the difference between the opening and closing balances of the trade payables (**R\$239.5 million** at June 30, 2019 compared to **R\$165.2 million** at year-end 2018). Trade payables represented positive cash flow of **R\$73.7 million** in the six months ended June 30, 2019.
- Our Taxes and contributions item represents sales taxes (ISS, ICMS, PIS and COFINS). This item represented positive cash flow of **R\$6.1 million** in the six months ended June 30, 2019.

Since our statement of cash flows begins with our Profit before income taxes, it also adjusts for cash amounts paid in respect of our income tax and social contribution, which totaled **R\$52.1 million** in the six months ended June 30, 2019. Our statement of cash flows also adjusts for interest income received in cash, which represented a positive cash flow of **R\$138.7 million** in the six months ended June 30, 2019.

As a result of the above, our Net Cash used in operating activities in the six months ended June 30, 2019 totaled **R\$447.8 million**.

Our Cash flows used in investing activities in the six months ended June 30, 2019 totaled **R\$2,044.7 million**. This amount consisted of **R\$148.5 million** in purchases and development of intangible assets, which represent purchases of third-party software and salaries and other amounts that we paid to develop internally software and technology, which we capitalize as intangible assets, and **R\$1,790.1 million** related to our conversion of cash and cash equivalents to investments in Brazil's government treasury bonds ("LFTs").

Our Cash flows used in financing activities in the six months ended June 30, 2019 totaled **R\$15.7 million**, principally related to our acquisition of the remaining **49%** of R2Tech Informática S.A. in February 2019.

After accounting for the total decrease in Cash and cash equivalents of **R\$2,508.3 million** discussed above, our Cash and cash equivalents at June 30, 2019 amounted to **R\$254.8 million**.

- (1) Non-GAAP total revenue and income excludes a foreign exchange gain on our follow-on proceeds in the amount of R\$27.3 million in the three months ended June 30, 2018, which relates to the impact of exchange rate variation on the conversion from U.S. dollars into Brazilian *reais* of the proceeds from our sale of new shares follow-on offering. We exclude this foreign exchange variation from our non-GAAP measures primarily because it is unusual income. The foreign exchange gain on our follow-on proceeds is included within Other financial income. Other financial income in the amount of R\$64.5 million is therefore adjusted by excluding the foreign exchange gain on our follow-on proceeds, resulting in non-GAAP Other financial income in the amount of R\$37.2 million.
- (2) Non-GAAP total expenses excludes:
- Stock-based compensation expenses in the total amount of R\$30.4 million (R\$62.3 million in the three months ended June 30, 2018), consisting of expenses for equity awards under our LTIP. This consists of expenses for equity awards under our long-term incentive plan (LTIP). We exclude stock-based compensation expenses from our non-GAAP measures primarily because they are non-cash expenses and they depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the vesting of the equity awards. The related employer payroll taxes depend on our stock price and the exchange rate from U.S. dollars into Brazilian *reais* at the time of the exercises and the vesting date of the equity awards, over which management has limited to no control, and as such management does not believe these expenses correlate to the operation of our business. The total of stock-based compensation expenses is allocated between Cost of sales and services and Administrative expenses. Excluding the stock-based compensation expenses, Cost of sales and services in the amount of R\$684.4 million (R\$482.8 million in the three months ended June 30, 2018) is adjusted by R\$2.4 million (R\$11.3 million in the three months ended June 30, 2018) resulting in non-GAAP Cost of sales and services of R\$682.0 million (R\$471.5 million in the three months ended June 30, 2018); and Administrative Expenses in the amount of R\$109.9 million (R\$109.2 million in the three months ended June 30, 2018) is adjusted by R\$28.0 million (R\$51.0 million in the three months ended June 30, 2018) resulting in non-GAAP Administrative expenses of R\$81.9 million (R\$58.2 million in the three months ended June 30, 2018).
  - Tax related to remittance of follow-on share proceeds (IOF tax) in the amount of R\$0.7 million in the three months ended June 30, 2018, which represents the impact of Brazilian IOF tax (currency remittance tax) payable when we remitted the proceeds from our sale of new shares in our June 2018 follow-on offering from the Cayman Islands to Brazil. We exclude this IOF tax on the remittance of follow-on share proceeds from our non-GAAP measures primarily because it is an unusual expense. The IOF tax is fully allocated to Financial expenses. Financial expenses in the amount of R\$2.8 million is therefore adjusted by excluding the IOF tax, resulting in non-GAAP Financial expenses in the amount of R\$2.1 million.
- (3) Non-GAAP profit before taxes is equal to the sum of the adjustments described in footnotes (1) and (2) above.
- (4) Non-GAAP income tax and social contribution consists of income tax at the rate of 34% calculated on the non-GAAP adjustments described in footnotes (1) and (2) above, other than the foreign exchange gain on follow-on proceeds of R\$27.3 million in the three months ended June 30, 2018, which is not taxable, and the tax benefits related to other non-GAAP adjustments.
- (5) Non-GAAP net income is equal to the sum of the adjustments described in footnotes (1), (2) and (4) above.
- (6) Non-GAAP basic earnings per common share and non-GAAP diluted earnings per common share reflect the adjustments to non-GAAP net income, which is allocated in full to Owners of the Company.
